Front End Developer

Front End Developer with a strong foundation in graphic design and around one year of hands-on experience working with development teams. Transitioned from graphic design to front end development with practical experience building responsive, user-focused web applications. Skilled in HTML, CSS, JavaScript, and React, with a strong ability to translate design concepts into clean, functional code.

WORK EXPERIENCE

Graphic Designer | Hockey Curve May 2024 – Feb 2025

- Worked with developers to support website development through design ready assets
- Designed UI assets for websites including banners icons layouts and visual components
- Created static and dynamic creatives for live digital advertising campaign

PROJECTS

Figma to webpage - https://figma-page-pi.vercel.app/

- Built a fully responsive webpage from Figma using HTML, CSS, and JavaScript.
- Implemented modern layouts with Flexbox and Grid
- Optimized for mobile first and cross browser compatibility

Movie Search Application - https://searchmovies-omega.vercel.app/

- Built a responsive movie search application using a public movie API
- Integrated API data to display movie posters, titles, and descriptions
- Implemented real time search functionality with dynamic results rendering
